SKILLS

PROGRAMMING
Language
- C++
- C, Java
- SQL, PL-SQL

Web Technologies
- HTML • CSS
- JavaScript • ReactJS
- MongoDB • NodeJS

EXTRA CURRICULAR

- JPMorgan Chase Co Virtual Experience Program Participant (2020)
- Active member of IEEE Organisation
- Active member of Google developers club

PROJECTS

CONTACT KEEPER
Keep it Safe
- It is a server based web application which is used to store contacts
- User can register or login to existing account
- User can edit or delete any contacts, and of course add new ones
- It is MERN application with a custom Express backend API that uses JWT (JSON WebToken) for authentication
- Tech Used: HTML, CSS, Javascript, NodeJS, MongoDB

GITHUB FINDER
Find the creator
- It is a dynamic web application which is used to find github users in a very efficient way
- Used Github API to take the data and show searched user as well as show all the users that has common characters in their username
- Tech Used: HTML, CSS, Javascript, NodeJS, MongoDB

SHOPPING CART
Add your choices
- Users can add/delete products of their choice from the cart
- Users can change the quantity of the selected products and reset the status of the cart
- Tech Used: HTML, CSS, Javascript, ReactJS

COURSEWORK

CORE COMPUTER SUBJECTS
- Data Structures - Younified foundation course at Pepcoding
- Introduction to Algorithms (MIT CourseWare 6.006)
- Operating Systems and Database Management System
- Object Oriented Programming

WEB DEVELOPMENT COURSES
- Programming foundations with Javascript, HTML and CSS
- MERN Stack Front to Back (Udemy)

ACHIEVEMENTS

Leetcode
- 4 Star Rated • Solved 600+ problem solving coding questions

Codeforces-:
- Participated in multiple coding contests (max rating - 1110)

Codechef
- 4 Star Rated (max rating - 1822)
- Achieved 103 rank in Codechef february long challenge 2022

- Secured 236 rank in quora coding contest, 2021
- Secured 1990 rank out of 32702 participants in google code jam(Qualification Round), 2022
